Colonel Chas. A. P. Hatfield, who was in command of the troops stationed here for over a year and who was ordered to El Paso a short time ago to take command of the second cavalry brigade, has been ordered to Douglas. Headquarters of this brigade will be moved to Douglas. General Pershing having succeeded Col. Hatfield as commander at El Paso.

Nature's Wise Process
In the case of all fish which take care of their young, a curious adaptation of natural law to circumstances is found. Those which take the greatest pains and care in sheltering their offspring have the fewest eggs, perhaps less than 100 at a lay, while, on the other hand, species of fish which pay not the slightest attention to their young produce hundreds of thousands, and even millions of eggs, at a single lay.

Seemed What She Wanted.
"I see this medicine is good for man and beast." "Yes," said the druggist. "Gimme a bottle. I believe that's the right combination to help my husband."—Kansas City Journal.

"Moving Pictures" Big Industry.
It has been calculated that nearly 300,000,000 feet, or more than 55,000 miles of film are used yearly to satisfy the world's demand for moving pictures.

Success.
Sinks—How's Dobson making out raising chickens? Jinks—Very well. He's pretty near got to the point where he can afford to eat one himself."
